Interprofessional Team Training

Edit

Welcome to the Interprofessional Team Training

About

The Interprofessional Team Training is a consecutive four-day workshop that will enhance a student's ability to function in interprofessional health care teams. All UThHealth students at all grade levels are welcome to attend.

Learning Objectives

- Meet and interact with students from all six health science schools
- Learn the core competencies of interprofessional collaboration (IPC)
- Receive training in TeamSTEPPS®
- Participate in activities designed to build teamwork and communication skills
- Use strategies and tools to enhance efficiency, effectiveness, and decision making in teams
- Analyze a patient case study using the IPC competencies
